(63) Continuation of application No. 14/213,543, filed on Mar. 14, 2014, which is a continuation of application No. 13/964,707, filed on Aug. 12, 2013, now abandoned, which is a continuation of application No. 13/484,199, filed on May 30, 2012, now Pat. No. 8,538,845.

(60) Provisional application No. 61/522,099, filed on Aug. 10, 2011, provisional application No. 61/493,064, filed on Jun. 3, 2011.

Embodiments are directed to monetary transaction system for conducting monetary transactions between transaction system subscribers and other entities. In one scenario, the monetary transaction system includes a mobile device that runs a monetary transaction system application. The monetary transaction system also includes a subscriber that has a profile with the system. The subscriber indicates a transaction that is to be performed with the monetary transaction system. The system further includes a monetary transaction system processor that performs the transactions specified by the subscriber including communicating with a monetary transaction database to determine whether the transaction is permissible based on data indicated in the subscriber's profile. The monetary transaction system also includes at least one entity that is to be involved in the specified transaction, where the entity has a profile with the monetary transaction system. This entity may be a person, a retail store, an agent or other entity.
